This is so cute. Play as the cat, direct the human to solve the puzzles by meowing and breaking things. Simple, elegant and cute. <https://youtu.be/vwMsXs4l8DQ>. A cute, simple puzzle game where you play as a cat and help a girl escape the level. Most of what you will be doing is meowing at the girl to get her attention, as she solves the puzzles. There are also hidden items in every stage to find and collect! My only complaint is that it's so short, but for a \$2 game I guess you get what you pay for.
